

When Hope Feels Lost: A Complete Guide to Supporting Him Through Treatment

By Jay Richard | Foreword by Dr. William Figlesthler, M.D., FACS

When Hope Feels Lost

A Complete Guide to Supporting Him Through Treatment

By Jay Richard

Foreword by Dr. William Figlesthler, M.D., FACS

When ED enters a relationship, both hearts feel the impact.

“Dr. Figlesthler highlights the importance of including the partner’s voice in the ED conversation — and affirms that healing is possible when couples face this journey side by side.”

— William Figlesthler, M.D., FACS, Urologist

ABOUT THIS BOOK

Partners often carry the hidden weight of erectile dysfunction — confusion, self-doubt, frustration, even grief. *When Hope Feels Lost* was written for the partner walking beside a man facing ED. With honesty, compassion, and practical guidance, this book helps partners navigate the emotional and relational challenges that ED brings, and rediscover hope together.

WHAT PARTNERS WILL GAIN

- Reassurance that worth is not diminished by his diagnosis
- Clear explanation of ED as a medical condition
- Support for grief, adjustment, and rediscovering hope
- Tools to strengthen communication and rebuild intimacy
- Stories of couples who found healing together
- Confidence in supporting his treatment decisions

WHY THIS MATTERS FOR YOUR PATIENTS

ED affects the relationship, not just the man. Providing this resource to a patient’s partner can dramatically improve treatment outcomes — reducing shame, improving communication, and building the support system that helps men follow through on care decisions.
